

## A piece of kitchen jewelry

Michaela De Labrá tells us about her romantic kitchen:

*I am proud of the French cuisine. For me, the kitchen is the heart of my home. Here I want visitors to feel at home. And with d'shelf I can expose all my colorful Ladurée macarons and French teas, yet in a dignified manner.*

*My kitchen is an expression of who I am. And I wonder why all kitchen manufacturers are so rigid, why everything looks the same? Only the kitchen names and price tags differ.*

*I want my kitchen to be unique. And with d'shelf I found my personal piece of jewelry in my kitchen!*
